Pulsar TERRA

Pulsar TERRA — UGV battery

Specifications

Voltage	**66.6 V (18S)**
Capacity	**246 000 mAh**
Energy	**16 384 Wh**
Weight	**≈ 45 kg**
Cell energy density	**380+ Wh/kg**

Pulsar TERRA is a high-voltage battery for unmanned ground vehicles. For UGVs, stability under peak current matters as much as capacity — this pack is designed for exactly that.

We adapt voltage, capacity, housing, BMS, connectors and mounting to your platform.
